

MediaShare

Home Network Storage - Simply Share, Store & Stream

Verbatim's MediaShare

Verbatim's MediaShare lets consumers easily create a centralised home network and store information in one simple location.

MediaShare offers up to 2TB of storage and gives consumers the ability to share photos, save and protect files, stream media and even access their content-from anywhere! Designed for home use, MediaShare has an easy-to-operate interface and its sleek and sturdy design looks great on any home cabinet or desk.

Quick and easy setup

1 Connect to router

2 Insert installation CD

3 Follow setup instructions

MediaShare interface features

Designed for easy network storage, Verbatim's MediaShare comes with all the features needed to manage content. The user-friendly interface makes it easy to do the following:

- **Share Content**—Share, manage and view content such as photos through the intuitive interface; upload entire photo albums directly to Facebook® or email links to friends through album sharing.
- **Stream Multimedia**—Play music, photos and videos on a variety of digital devices like Sony Playstation® 3, Microsoft Xbox 360 and other DLNA compliant devices.
- **Multitask**—Consumers can enjoy MediaShare content in numerous ways—the options are endless. They can listen to their favourite songs and view pictures in the living room through a TV, while someone else listens to different music on a laptop in the kitchen—all accessed simultaneously from one MediaShare.
- **Access Anywhere**—With MediaShare, consumers can access their files anytime from any location with an internet connection.
- **Protect Data**—Consumers can establish automated back-ups of their networked computers and run manual back-ups anytime. Also, the MediaShare offers password protection for user accounts—even on shared album links.
- **Create User Accounts**—Multiple user accounts are available for set-up.
- **Manage Hardware**—The intuitive user interface allows consumers to best manage the server.

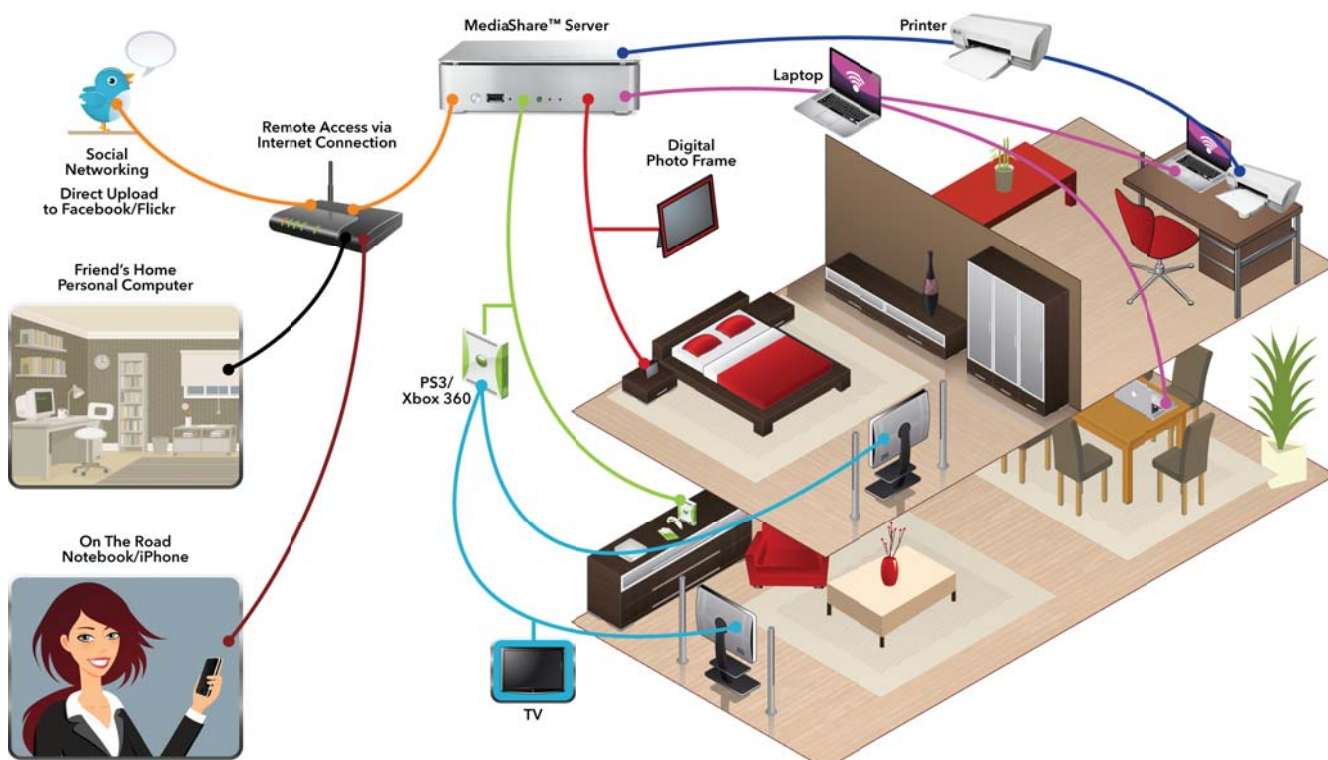

MediaShare premium access

More features are available with an annual premium package subscription. Consumers can access additional device support and direct sharing capabilities such as mobile phone use, an iPhone app, RSS feeds, Cooliris for 3D wall photo views and direct upload of photos to Flickr.® Purchase of a MediaShare Server includes a free 30-day trial of our premium package subscription.

MediaShare hardware features

- **Sleek Design**—Verbatim's MediaShare boasts a sleek and sturdy aluminium enclosure that complements any home. It can readily handle the wear and tear of everyday life.
- **Multiple Ports**—The MediaShare Server offers an eSATA port for auto mirroring and USB ports for transferring data to or from USB drives.
- **Sleep Mode**—Energy saving! The MediaShare saves power consumption during periods of inactivity by going into sleep mode.
- **Easy Transfer Button**—Consumers can transfer files from a USB drive or single slot memory card directly onto their MediaShare with just the touch of a button.
- **Quiet Operation**—The quiet, fan-less design won't disturb or distract.
- **Centralised Server**—The MediaShare lets consumers centralise all their home media files and access a shared printer from any computer on their network.
- **High-Performance Processor**—The MediaShare offers a high performance processor that is perfect for media streaming.
- **Large Capacity**—Verbatim's MediaShare has a capacity of up to 2TB.

Simply share, store and stream

Share Photos & More

Verbatim's MediaShare Server makes sharing photos and videos of summer vacations and family events easy. Consumers can organise and group photos into digital albums. From there, they can create and automatically email an album link that allows friends and family to view or download photos and videos directly from MediaShare.

- Links can be password protected
- Expiration dates can be set to limit access
- Albums can be uploaded directly from MediaShare to Facebook® or Flickr®**

Save & Protect Files

Verbatim's MediaShare offers easy data transfer from USB storage devices such as a USB flash or an external hard drive. There's no need to power up a computer—just connect a storage device to the MediaShare and push the Easy-Transfer button. This simple step instantly transfers data to a designated storage folder on the MediaShare. From there, consumers can organise and manage files using the intuitive interface. MediaShare also offers the following protective features:

- It is Windows Backup compatible for PC's
- It is Time Machine compatible for Mac users
- It has an eSATA port for mirroring by connecting an external hard drive*
- It allows end-users to schedule routine back-ups to a USB drive

Access Anywhere

Verbatim's MediaShare gives consumers access to their pictures, music, videos or any files, anytime they're needed—whether at home or visiting friends and family. Consumers simply go to myverbatim.com from any internet connection and access their MediaShare. From there, they can:

- Remotely upload, download and manage files
- View photos, play music and watch videos via the internet—anywhere
- View and play files on their mobile phone**

Stream Multimedia

The MediaShare offers media, iTunes and print server functions all in one centralised place. Consumers can save their photos, music and videos in one easy location and then listen to or view this content from other devices. MediaShare can:

- Stream music to any PC or Mac running Apple iTunes
- Stream music and photos through Sony Playstation® 3, Microsoft Xbox 360, Digital Media Adapters or other DLNA compliant devices
- Function as a print server so anyone on a home network can access a USB printer connected to the server
- Offer users remote access for media on-the-go
